

# **E-z Breaks Instruction Guide**

Our exclusive Break Structure product provides programming data and break information for each network instance in your insertable network lineup. You will also receive daily updated schedule changes for a 7-day rolling window and a bulk network download by time zone on demand.

## E-z Breaks

### Data Changes – Email Example

*Your designated Traffic contacts will be sent daily emails indicating networks that have experienced any changes to Custom Breaks, Window Changes and/or Title Changes over a 2-week period.*

**The attachment in the Breaks Update email will contain ONLY the updated changes, which you can copy and unzip in Eclipse - or - download by clicking the "here" link.**
