Updated March 2016

# Projected Calendar

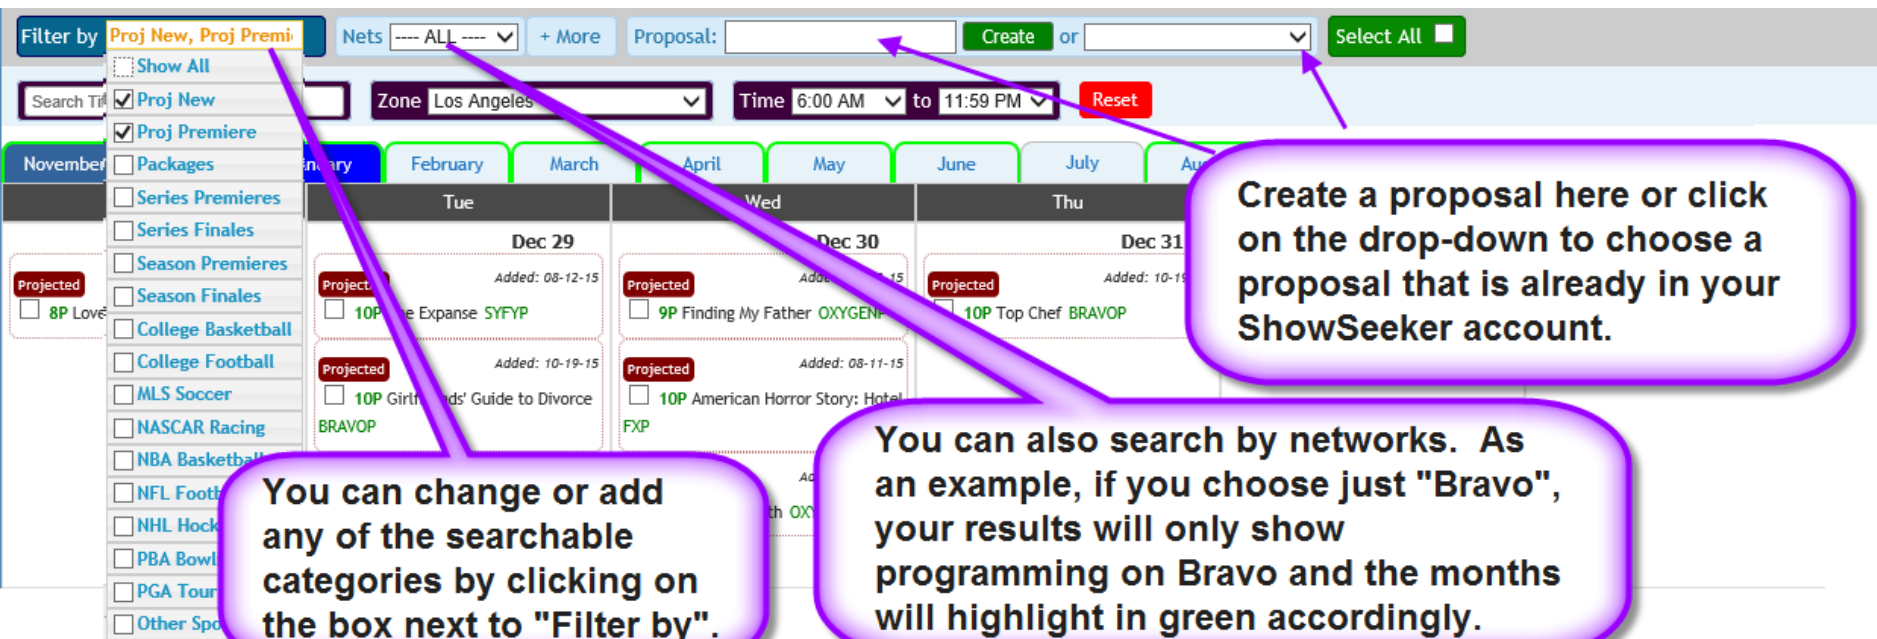

Choose "Calendars" from the Top Menu Bar, then select the type of programming you want to see. We have chosen to see Projected programming.

The Calendar will open and you will notice that the "months" tabs will have green highlights around them to indicate the months that contain programs for the category selected. In this case, all the shows that contain Projected programming are highlighted.

**Important Note:** Please remember these are **PROJECTED** shows that we have found through affiliate websites, trade publications and social media. They are subject to change so **PLEASE** re-run your search before airdate if you choose to add these to a proposal.

Reset between searches for best results

In our Title Search example, we typed "college" and the Calendar is highlighting all the months that have "college" in the title. You can individually select the ones you want to add to your proposal by checking the box next to the title, or check the box next to the green "Select All" button, then move to future months to add more if you want to.

In addition to searching by Title, you can also search by Network by selecting your choice in the "Nets" area indicated in the yellow highlight above. Make sure you "Reset" first to ensure you get the most accurate results.
